ATHENA, THE FLYING FISH

Athena can glide in the air like an airplane!
She uses her big fins like wings to fly above the water.
She jumps to escape bigger fish!

What do you call a group of flying fish?
A "glide" of flying fish

Draw splashy waves under Athena.

Boats and nets can hurt gliders like Athena

Where would you fly if you could?

THE FLYING FISH LEAP

Take a small step, then jump up and spread your arms wide like wings, landing softly!
