# MEET THE BUBBLE BUDDIES

## ORESTIS

A fun-loving, friendly Clownfish, Orestis is always ready for an adventure or to help a buddy in need.

Clownfish live in anemone which protect them from predators, and the clownfish's bright colours lure fish in for the anemone to eat.

## APOLLO

Adventure, food and more food are Apollo's favourite things. Always ready for some fun, Apollo is a Red-mouthed Goby who will play all day long! Until dinner time that is.

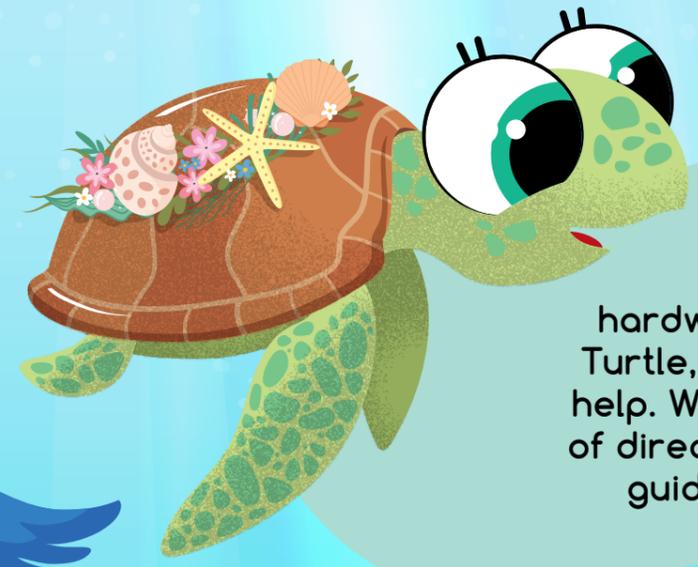

Red-mouthed Gobies grow up to 18cm long

## TERESA

A gentle and hardworking Green Sea Turtle, Teresa is happy to help. With her great sense of direction, she can easily guide you home too!

Green Sea Turtles are classified as an endangered species and we need to do all we can to protect them!

## ATHENA

The singing star of Bubble Buddies Bay, Athena is a talented Flying Fish who will wow you with a tune and her endless sparkle.

Flying fish can't really fly, but they can propel themselves out of the water to nearly 6m high!

## CARCI

Carci the Crab has lots of special skills including being able to cut with her sharp claws, and scuttle up onto land.

Mediterranean green crabs are omnivores - they eat both algae and small animals like mussels.

## DIMITRA

Dimitra the Octopus is caring, kind and a great cook! She loves to look after the other Bubble Buddies. Plus, if you need something done - just ask Dimitra!

Octopus have EIGHT arms!

# SOPHIA

Clever and brainy, Sophia is a Seahorse who has all the answers and will help you work out any problem.

Seahorses don't look like fish but they are! They don't have scales though; they have an exo-skeleton made up of hard, bony plates.

# ELECTRA & ELENI

Electra and Eleni are Electric Eels who you'll find helping out wherever electricity is needed.

# ATLAS

The oldest, wisest fish in Bubble Buddies Bay, visit Atlas the Anglerfish in his mysterious cave if you're looking for advice.

The deep sea is always very dark, as light from the sun doesn't reach down there. So, some species of anglerfish produce their own source of light

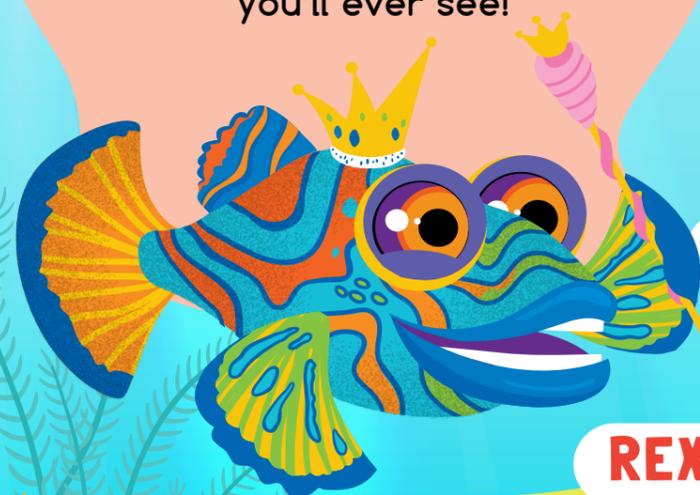

Emergency?! Don't panic, Soter the Stingray is on her way! Brave, speedy and always ready for action, Soter will help out anyone who calls.

# SOTER

The King of Bubble Buddies Bay is the most beautiful, colourful and dazzling Mandarinfish you'll ever see!

Stingrays are pretty speedy. Some can travel up to 30 miles per hour

# KING ADONIS

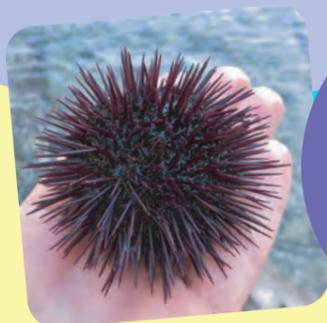

# THEO

As a Sea Urchin, Theo is smaller than his friends, but he has a big personality. He's always ready for adventure and is just as brave as the larger Bubble Buddies.

The Purple Sea Urchin is spiny but not dangerous. It can be held with care!

# REX

The leader of the Awesome Oysters is Rex - a cheerful little fellow who will be there whenever you need a water clean-up.

A few minutes later...

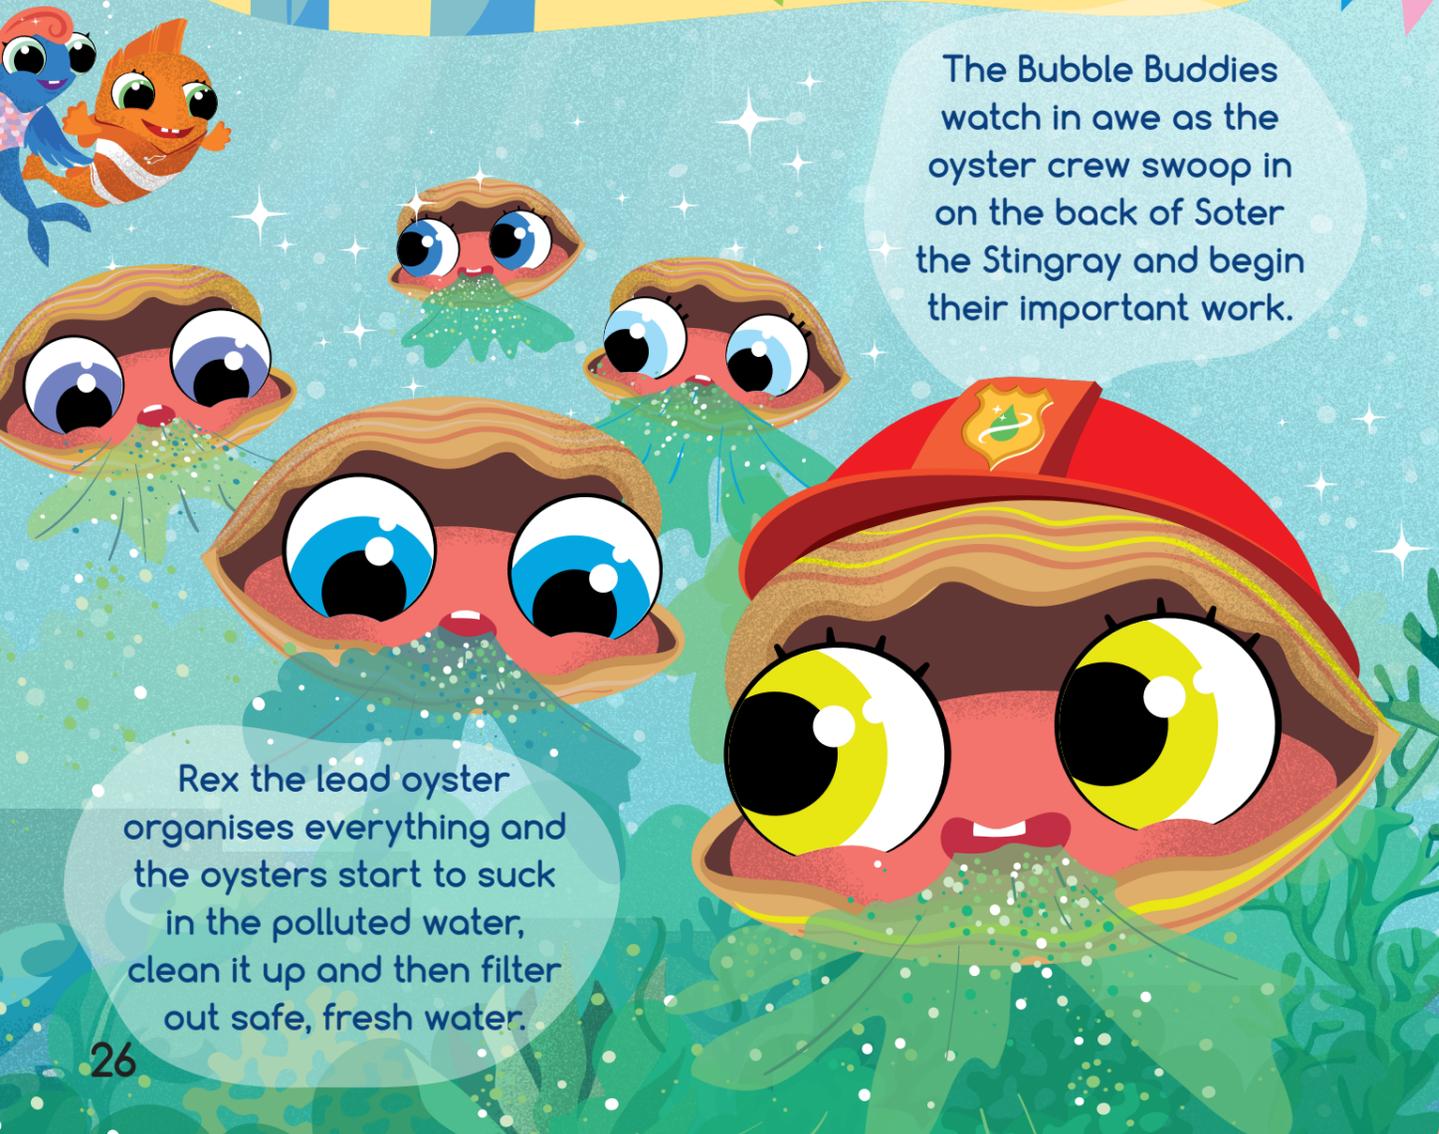

In no time at all, the pollution is gone, and the water is clean! Just in time for King Adonis to make his grand entrance. All the Bubble buddies watch in awe.

"I now declare Bubble Buddies Fair open!"

The Bubble Buddies watch in awe as the oyster crew swoop in on the back of Soter the Stingray and begin their important work.

Rex the lead oyster organises everything and the oysters start to suck in the polluted water, clean it up and then filter out safe, fresh water.

"What a day! I think it's time to eat."

"Fin-tastic!"

"Is anyone making soup?"

# Colour a King

Go wild colouring King Adonis - the beautiful Mandarinfish

# Find That Fish!

Bubble Buddies are at the fair!  
Can you find these five?  
Colour them in when you do.

Colour in your badge when you have finished.

# Sophia's Summer Scramble

Copy the words into the circles, then use the letters in the yellow circles to find the hidden word!

hot ○ ○ ○

sun ○ ○ ○

hat ○ ○ ○

fair ○ ○ ○ ○

○ y ○ ○ e ○

# Odd Oyster Out

Which of these four oysters is different to the others?
